

Dear 2009 Faculty Member and Poster Presenters:

As part of our new AMLI website and at the request of many of our members, we would like to make some of the content from our annual meeting available online. Some of the items that would be of value to our members would be the abstracts of our faculty members' lectures and copies of posters presented at the meeting. In addition, we are considering audio-recording the presentations and making them available along with the slides from each lecture. Initially, we may not be able to include all presentations, but will try to include as many of the highlights as possible.

Therefore we would like for you to consider participating in this new endeavor. However, we will not use your materials without your authorization. If you are willing to have your abstract and presentation included, please indicate your release below and return this page as indicated. We feel that expanding our site in such a way will make it a much more useful and educational site to our members.
